Political Activity

SEDS-USA and its individual chapters will not spend funds supporting particular candidates, or supporting any particular side of an issue, but may spend money in order to educate the public or its membership on the issues. However, individual SEDS chapters or members are free to organize to support issues or candidates, as long as they do not invoke the SEDS name.

SECTION_9

Initial Directors Budgets

Within a month of the elections, each Board member must submit a proposed budget for the activities in his/her area. The Board shall then vote on the tentative allocation of these funds. A minimum of 25% of the SEDS funds must be held in reserve for contingencies.

Section_9.2 These funds shall be held in reserve for the activities of that Director, unless that director approves releasing these funds back to the contingency fund for reallocation. Once these funds have been designated to a certain Director, (s)he may not designate these funds for projects outside his/her area. The board cannot force an individual Director to reallocate funds already designated for his activities to be returned to the contingency fund.

Section_9.3 If a certain Director encounters more costs than expected, the Director may petition the

executive board to allocate addition funds from the contingency area for specific projects.

Section_9.4 Each executive board member is required to keep a journal of ALL expenses for which reimbursements are made, including descriptions of what is covered by these expenses. This journal is to be submitted along with receipts for the expense before any reimbursement can be made. Section_10.2 All reimbursements must have approval before the expense is incurred, except in outstanding circumstances.

Section_10.4 The Director of Finance is charged with investigating the possible alternatives to the planned expense. The Executive Board may require the individual requesting the reimbursement approval to provide documented results of his/her research into possible cheaper alternatives to the plan that has been proposed, before the Executive Board is required to decide on the issue.

Section_10.5a The Director of Finance must conclude their investigations within one week, and cast their vote then, or present their findings to the Executive Board. The Executive Board has two weeks to vote on any reimbursement pre-approval or payment.

Section_10.5b If the Executive Board requires more information before making a decision, a request for this additional must be sent to the person proposing the expenditure. The investigation will then be considered concluded, and a new investigation will start once this new information is provided.

Section_10.5c The Executive Board has the right to forward any reimbursement vote for an amount equal to or less than the approval limit to the Council of Chapters for them to decide upon. If the Executive Board does this, the Executive Board cannot present a group opinion to the board, but may discuss the matter as individual Board members. This is to be done only in the cases where the vote cannot be passed or failed outright within the Executive Board (i.e. over half of the board present abstains from voting, or the vote ties).

Section_10.7a For the approval of expenditures less than or equal to the approval limit, the Executive Board shall meet to discuss the issue, and then vote on an amount to approve for this project. Provided that quorum has been met, a majority of the Executive Board present at the meeting is required to approve this amount. This amount does not have to be the same amount as the originally proposed amount, if the Executive Board believes that another amount better reflects the costs to be incurred.

Section_10.7b For expenditures less than or equal to the approval limit, if prepayment of funds is requested and the Executive Board finds that this is necessary, an amount up to \$20 less than the projected total expenditures (for the project) may be paid to the individual running the project. The person receiving these funds will be responsible for submitting receipts to account for how the funds are spent.

Section_10.8a For the approval of expenditures greater than the approval limit, the Executive Board shall

meet to discuss this issue. As with proposals equal to or less than the approval limit, the Executive Board shall vote on an amount to approve.

Section_10.8b If prepayment of funds is requested for a project whose total expenditures exceed the approval limit, a separate feasibility study will be conducted on just the prepayment request, and the Executive Board shall vote on an amount to be prepaid.

Section_10.8c The approval amount and the prepayment amount (if any) will then be presented to the executive board, in the form of a single yes/no proposal. The Executive Board must then vote to approve (by a majority decision) or reject this proposal.

Section_10.9a If a request for a supplementary expenditure to a previously approved expenditure causes the total expenditure to exceed the approval limit, then the procedure described in [Section 10.8](#) is used when considering this request. Otherwise, the procedure described in [Section 10.7](#) is to be used.

Section_10.9b Any appeals for reimbursement for expenses exceeding the preapproved amount (after expenses have occurred) shall be considered a request for a supplemental expenditure.

As long as the expense doesn't exceed the allocated budget for the fiscal year, the transaction can then be made. If the transaction will exceed the budget for the fiscal year, then the transaction is rejected.

Section_14.7 In order to ensure full disclosure of the Fund and the budget, a real-time list of expenditures will be kept online in full disclosure to the Executive Board, Chapter representatives, the Board of Trustees, and the Board of Alumni. Furthermore, the Vice Chair and Director of Finance will prepare a quarterly report with current value of the fund and any changes made to date of that fiscal year (1/1-12/31).
